A holistic framework and strategic roadmap to analytics maturity

From actively managing population health, to reducing readmissions and their associated costs, digitised medical data is helping Healthcare Organisations enhance the value of care. A strong analytics foundation ensures that data can drive and inform the decision making process in a significant way.

Improve operations, enhance quality of care and see increased return on your health IT investment with HIMSS Analytics assessment and strategy services.

**Why AMAM?**

The Adoption Model for Analytics Maturity (AMAM) is an international eight stage (0-7) model measuring the capabilities your organisation has gained from technology and surrounding processes. Our AMAM services are designed to progressively measure and advance your organisation’s analytics capabilities to improve healthcare delivery.

**Structured, prescriptive assessment** to assist in developing and advancing your analytics strategy

**Clearly defined framework** that is defensible, flexible and vendor neutral

**Determine your own path to analytics maturity** with guidance from industry experts
Work with us and gain:

**Data content instruction**
Grow your data content to improve operational, clinical and financial performance

**Infrastructure building**
Develop a strategy for sourcing data

**Data governance shaping**
Manage your data assets and align your analytics efforts with the overall strategy of your organisation

**Analytics competency guidance**
Develop your analytics resources and refine skills in a coordinated and structured manner

---

**Progress to Stage 7 with the AMAM Toolkit**
